Agriculture machinery equipment mini paddy reaper/ harvester!

· Brief company introduction
1. Established in 2006, Yancheng Xinmingyue Machinery Manufacture Co., Ltd is a professional manufacturer and exporter that is concerned with the design, development and production of paddy reaper (also called reapers).
2. As a result of high quality products and outstanding customer service, we have gained a great network in many countries such as India, Pakistan, Saudi Arabia, Indonesia, and some African countries such as Guinea, new Guinea, Egypt, Ethiopia, Ghana, Nigeria, etc..

· Brief introduction of paddy reaper
1. The paddy reaper is used for harvesting rice, wheat, soybean, forage grass and other simple Individual plants.
2. The paddy reaper has the characteristics of simple & proper structure operation and repairing, small volume, light weight, low energy consumption, stable performance and strong applicability.
3. The paddy reaper is specially applicable for small land blocks, mountainous regions, hilly and the areas that need straw utilization.

· Harvesting process of paddy reaper
For 4G Series, it’s driven by gasoline/diesel engine. The power is outputted to the chain wheel through the gear box, and then to the gear case of the cutting platform. Then, it drives the cutting knife moving through the gear case, the eccentric wheel and the connecting rod. Later, the power is transmitted to the transmission shaft through the chain wheel on the gear-case box so as to make the transmission chain wheel working. When the Machine walks forward, the divider and the grain-lifter in front of the cutting platform would touch the crop first. Then, the grain-lifter cover, the grain-lifter star wheel and the belt would work together to lift and convey the crop to the cutting platform for cutting. With the comprehensive function of the upper & lower conveying chains, the grain-lifter star wheel, and the upper & lower pressing springs of the grain-lifter, the cut crop would
keep standing and be conveyed to the exit, and then placed on the field.

Free Spare Parts for paddy reaper

Specialized in mini harvester for over 10 years

- Accelerator Cables
- 16*13/12*10 Spanner
- Chain Joint
- Special Purpose Spanner
- Switch
- Triangle Belt
- Taking Grain Belt
- Blade, Rivet
- Conveyor Chain
- Driven Chain
- Screw
- Switch-Back Cables

Matched Power for paddy reaper

Specialized in mini harvester for over 10 years

You can choose...

Gasoline/ Diesel engine

Workshop for paddy reaper
Packing & Shipping for paddy reaper

Packing: Our paddy reaper is packed with high strength wooden case or according to clients' special requirements.
Our clients

Service of paddy reaper

1. Pre-sale:
   We can recommend more suitable machine and give your best solutions for you according to your requirements

2. Sale:
   Keep closed contact with workers, supervise production quality and progress
   Booking shipping space before delivery a week ago, then we will give you related documents.

3. After-sale
   Vulnerable parts: offer based on their prime cost during one year.
Invulnerable parts: offer for free during one year. After one year, offer vulnerable and invulnerable parts with factory prices.

- About FAQ

1. Can we use our own logo and design?
Of course you can. But usually you provide the logo design and we do the stickers for you, if just for samples, we will add some extra fee for it considering the whole cost.

2. Whether a preferential price can be offered?
* Our factory is specialized in paddy reaper, compared with the trading company, the price is the lowest.
* The more containers you order, the more discounts you well get.
* Now is the promotional season, the price is the lowest of the year.

3. Why do you choose us?
* Specialized in paddy reaper for over 10 years.
* Customers spread over the word including India, Pakistan, Mexico, Thailand etc.
* Various kinds of mini rice and wheat cutting drying machine for your choice.
* Our core value in committing to quality, and focus on customers.
